

Your brand new building has just completed the construction stage & everything needs to be in detail cleaned. It is important to present the property in the best light to the Customer. That requires cleaning up the plaster dust and scraping the dried cement from the windows to give it that final detailed touch.

We also do touch up cleaning for those new homes that have been on the market for any length of time. We get you ready to set your furniture in place and start living in your new home.

After this huge investment in term of money, time and effort into remodeling or building your facility we're sure you'll want its final presentation to be clean and beautiful. Don't move in until around the world providers you with the after construction clean-up. And your property will look clean, smell fresh and instill a sense of pride among its new occupants.

Our construction clean-up services include the following and much more:

- ? Washing all surfaces
- ? High dust removal
- ? Vacuuming of all surfaces.
- ? Floor cleaning, waxing and buffing
- ? Cleaning windowsills and window frames
- ? Window and glass cleaning
- ? And much more
